Accredited Standards Committee A108

The scope of ASC A108 is to develop standards which define the installation of ceramic, glass, stone and other hard surface tiles and panels as well as the test methods and physical properties for ceramic, glass, stone, and other hard surface flooring and wall covering materials, and related installation materials. These are voluntary standards which are intended to serve as a guide to the general public, manufacturers, distributors, etc. and others in the tile industry.

Officers:
